

The following specification describes the required compressor to run two or more optiSORTs

air compressor + 90l air chamber (400 Volts, 3kW),

pressure controller,

condensate separator,

connector for air tube,

cut-in pressure 5,5 – 6,0 bar,

cut-out pressure 7,5 – 8,0 bar,

suction capacity 500l/min.,

continuous output 350l/min.,

Output pressure for optiSORT 6,0 bar maximum.
